

# Improve Your Bottom Line with an Economic Stimulus Plan from BE.

At Broadcast Electronics we're working to help you improve your bottom line in these challenging times by providing you with our own stimulus plan. We know your budgets are tight, so we're making it more affordable than ever to buy and save on the parts you need.

**Save up to 25% off new list prices for refurbished spare parts.** These "like new" products include power amplifiers, power supplies, exciters, select PC boards and much more.

Backed by BE's full 3-month, refurbished equipment warranty, all products come fully tested with the same high quality standards you expect from the industry's leading radio equipment manufacturer. Make sure your station is covered with the spare parts you need at a price that can't be beat!

Examples of great savings include:

Item Description	Estimated Savings
AM Power Supplies	up to \$175
AM Power Modules	up to \$420
S/FMi Series Power Supplies	up to \$990
C/S/FMi Series Amplifier Modules	up to \$570
FXi Digital Exciters	up to \$2320
Exciter Power Supplies	up to \$400

For a complete list of available inventory visit [www.bdcast.com/spareparts](http://www.bdcast.com/spareparts). Most parts and assemblies will ship within one week and are available on a first come, first served basis.

Contact our BE Parts Department today at **217.224.9600** for pricing and start saving more of your hard earned dollars!
