

AudioVAULT[®] Xpresso

powered by **flex**

STREAMLINED AUTOMATION

- Quick Starts
- Segue Editor
- Voice Tracking
- Multiple Languages
- Designed for Easy Startup
- Perfect for Small Operations
- Redundancy Options

Small Yet Powerful!

We've taken the power of AudioVAULT Flex and packaged it for any size application. Xpresso is perfect for streaming stations and multi-cast channels yet still powerful enough for large operations.

With all the features you need from an automation system, Xpresso is easy on the user and your budget.

Xpresso allows you to build a system to suit your needs, so you are not paying for features you won't use. In addition, there are support options designed to keep you covered based on your technical level and your budget.
