

AudioVAULT Flex

Version 10.40

- Reimagined satellite integration.
- Real-time integration with MusicMaster™.
- Brand new AVIimport for content downloads.
- Perfect Timing™ combines auto-fill, auto-drop and squeeze/stretch to keep your station on time.

More Features, Great Reliability

The most reliable and expandable studio automation system gives you more control than ever before with new features like reimagined satellite automation that makes it easier than ever to set-up and manage satellite programming.

Also, we've introduced PerfectTiming™ a feature designed to keep you on-time, all the time!

Also, brand new, is real-time integration with MusicMaster™, that makes sure every song you insert or replace always follows your rules. And reconciliation a breeze, because it happens in real-time without you lifting a finger.

AudioVAULT Flex continues the tradition of providing the most flexible studio automation system with full service customizable studio tools.

Broadcast Electronics • 4100 North 24th St. • Quincy, Illinois 62305-3606 U.S.A

Mobile App

Now you can stay connected with your AudioVAULT FleX system while away from the station. Whether you're an engineer or air talent, the FleX Mobile App gives you the features you need to securely interface with your AudioVAULT FleX while on the go.

- Control AV FleX Remotely
- Monitor AV FleX Remotely

Perfect Timing™

AudioVAULT FleX 10.40 introduces Perfect Timing™, designed to keep your station on time, all the time! Perfect Timing™ uses audio squeeze and stretch, combined with auto-fill and auto-drop to make sure hours or segments end on time. In addition, individual audio elements can be made to play back at a more desirable duration. No more playing :29's and :59's! Plus, if you use MusicMaster™, auto-fill songs will be chosen in real-time by MusicMaster™, so they will always follow your programming rules and keep you sounding great!

Satellite

AudioVAULT FleX 10.40 takes you to a whole new level of satellite integration. Now FleX users can more easily set up satellite programming for syndicated shows and sporting events. Plus, FleX has a brand new satellite gadget for checking the status of programming and making on-the-fly changes. In addition, FleX's Perfect Timing™ assures that you will sound great getting into and out of satellite programming.

MusicMaster™

AudioVAULT FleX now interfaces with MusicMaster™ for real-time song replacement, insert and reconciliation. In addition FleX's Perfect-Timing™ feature can automatically use MusicMaster™ suggested songs to keep you on time, with no user interaction.
